

## Tornado Heights Estate.

We here at **Clean Up and Clear Out**, Real Estate Developers for the ignorant and the stupid, have a once in the lifetime opportunity to offer.

We are offering twenty five acre blocks, with nuclear energy and calcium enriched blocks of land, for only \$1,000 an acre; if you buy five blocks we will discount the price to \$500 an acre.

This land previously had two different uses; see if the following pictures give you a clue :-

Yes, that is correct; there was an accident on this site and those who died here were buried here; the bodies have calcium enriched the soil and the radioactivity can easily be converted into nuclear energy.

**HURRY** - this opportunity will not last long !!!!.
