

Introducing:-

Portia Pig, Director of Venom Industries

## VENOM INDUSTRIES - the home of venom

For some years now, we have received requests to purchase our speciality, VITUPERATIVE VITRIOL™, greatly loved and used by theologians, political operatives and other assorted nasties, but we have been unable to meet the demand from these cashed up lovelies.

Due to our innovative milking processes from rancid bankers, we now have sufficient production to offer VITUPERATIVE VITRIOL™, to the wider world. You will need to supply us with proof that you are sufficiently vile and will have to undertake to only use it on people who care about others.

We, of course, offer a full range of venoms and have a nice line of very effective sarcasms, along with packages of put downs and offensive remarks, at very reasonable prices.

We look forward to dealing with you soon and all our products carry the seal of approval from the Associated Council of Serpents.
